

## Get the Glow for the Holidays – Stage Yourself!

Dr. Sonal Patel, Ph.D.

We look forward to holiday parties and family reunions all year long, but when they finally arrive, we start looking in the mirror and seeing the new wrinkles, sun/age spots, facial capillaries, and other “aging” issues – all of which make us realize another year has gone by!

If this holiday you want to hear people say “Wow, you look great!” without having to take dramatic measures, here are a few suggestions to help you determine how to address the skincare and appearance concerns you have.

Before and after photofacial

Concern:	Wrinkles	Sun/age spots, or uneven skin tone	Facial capillaries, Redness or Rosacea	Cellulite, or Toxin buildup	Rough texture, large pores, or acne	Spider Veins	Excess Hair
<b>Possible Solutions</b>	Botox to smooth wrinkles around eyes and forehead. Chemical eyebrow lift.	Photorejuvenation: Intense Pulsed Light (IPL) treatment targets melanin.	Photorejuvenation With IPL to clear Capillaries and calm redness.	Ionithemie to smooth out dimpled skin (“orange peel effect”) and detox. This is a natural treatment.	Customized Chemical Peels- take away dead skin, treat acne, and reduce pore size by building collagen.	Injections to dramatically clear spider veins.	Permanent Hair Removal using the latest and fastest technology. Safe for all skin types.
	Restylane to: • Add volume around mouth and nose. • Lift down-turned mouth. • For fuller, smoother lips.	Customized chemical peels reduce superficial pigment.	Specially designed Rosacea facials to reduce redness.	Cellulite smoothing skincare kit.	Microdermabrasion • decrease appearance of blackheads, whiteheads, and exfoliate dead skin.		
	Customized Chemical Peels to increase collagen and thicken skin.	Microdermabrasions physically exfoliates surface pigment to even out slight unevenness.	Pharmaceutical grade gentle skincare products		Deep pore cleansing facial using result-oriented products.		
	Pharmaceutical grade skincare products specially formulated and clinically tested to build collagen	Pharmaceutical grade skincare products such as retinols and skin brighteners that even out skin tone			Pharmaceutical grade skincare products- clinically proven to build collagen, treat acne and reduce acne scarring.		

Radiance Medspa offers complimentary consultations which include a digital complexion analysis to take a closer look at the surface and subsurface of your skin. This helps us to customize a treatment plan specifically for you and your skincare goals.

Before and after photofacial

Dr. Patel, Medspa Director at Radiance, uses her doctorate in Molecular Biology to stay abreast of the facial rejuvenation sciences. Her mission is to offer only services that are clinically-proven and results-oriented. Her belief is that an educated client is the best client, so she is always available to clients for question or concerns. The other members of the team at Radiance consist of trained and experienced medical estheticians and nurses along with the medical director Dr. John V. Belonte, Jr., M.D.
